The participants arrived 27.9. to Kouvola, Finland

28.9. 2015 Monday

In welcoming session at KSAO Principal Timo Olli warmly welcomed participants to meeting and to KSAO. Then there was presentation of the school and teaching of cleaners. The participants went round the classrooms and other teaching points. In the morning the group discussed about Involvement of enterprises in vocational education and training. This was based on the summary of Needs and benefits template which was made earlier by every partner.

The lunch was served in Pikkukokki, Student teaching restaurant of KSAO.

In the afternoon participants were split to workshops. In the workshops plans were made for Presentation in disseminations and multiplier events, common Learning Agreement was created, Memorandum of Understanding between schools was created and developing cooperation and ICT pathways: VET, healthcare and cleaning industry were processed further.

In the end of the day was management meeting about finance and reporting.

29.9.2015 Tuesday

The participants visited Carea, Kymenlaakso Central hospital in Kotka. The leaders of both organizations Carea and Kastek gave overview of the organizations, hospital and general information. One presentation was about big renovation for the hospitals whole building and service systems.

The participants visited different parts and wards of the hospital and benchmarked cleaning and catering services.

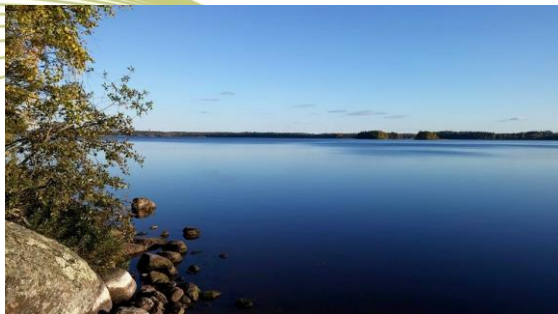

In the afternoon the participants were split to groups and each group made mapping through the hospital in the different wards.

30.9.2015 Wednesday

The meeting continued with planning the future and continuation of project. The Danish team made presentation of evaluation from France meeting and the participants filled the evaluation forms about Finnish meeting. Three companies related to hospital cleaning made presentations about their products.

Goodbye from Finland!
